SUMMARY: Product UX Designer with a background in Industrial Design and experience leading design projects across cross-functional teams. Skilled in user research, prototyping, and delivering user-centered solutions across digital and emerging technologies.

EXPERIENCE

Graduate Mentor & Peer Mentor — SCAD

Mar 2026 – Present

- Mentor students through academic challenges, software tools, and technical skills, providing guidance on research.
- Support students in academic planning, goal setting, and building technical proficiency for program success.

Research Lead — Microsoft

Mar 2025 – Jun 2025

- Designed an AI-evaluation dashboard for ethical and human-centered AI outputs.
- Built flows and prototypes that standardized AI behavior evaluation and improved team collaboration.

UX Research Lead — Provost Studio

Jan 2025 – Mar 2025

- Led UX research for a new XR/AR spectator experience for NASCAR audiences.
- Synthesized insights into interaction models and experience flows for immersive race viewing.

Senior Web & Product Designer — Omid Co.

Mar 2021 – Feb 2024

- Led design of web templates and UI systems, including a multilingual e-commerce platform.
- Managed end-to-end design delivery, improving usability and responsive layouts from concept to launch.

Design Manager — Azarbita Factory

Jan 2016 – Oct 2020

- Led product design team through the full design lifecycle, including prototyping and usability validation.
- Mentored junior designers and managed cross-functional design delivery.
